EDUCATION

S-VYASA Deemed-to-be University (School of Advanced Studies)

2025 – 2029

B.Tech in Computer Science & Engineering • CGPA: 9.52 / 10

- UGC-Approved program integrated with NxtWave's Industry Ready Certificate (IRC).
- Specialized coursework in Machine Learning, Deep Learning, Data Structures, and Cloud Computing.

Jnanodaya PU College

2024

12th Grade (PCMC Stream) • Score: 92.3%

EXPERIENCE & LEADERSHIP

Launched Global

Nov 2025 – Dec 2025

Web Developer Intern

- Developed a responsive web application using JavaScript (ES6+) and the Jikan API to search and manage anime watchlists.
- Implemented automated progress tracking and LocalStorage persistence to manage user states efficiently.

AI Workshop Instructor

Jul 2026 – Aug 2026

Jnanodaya PU College, St. Rossello's Central School, Mahaveer Vidya Mandir

- Led instructional sessions teaching students to construct an automated 'AI News Summarizer' workflow.
- Demonstrated applied automation by transforming a 45-minute manual research task into a 2-minute daily intelligence brief.

SELECTED PROJECTS

Twitter Sentiment Analysis Pipeline

Python, Google Gemini Embeddings, XGBoost

- Developed an end-to-end machine learning pipeline transforming unstructured social media text into semantic vectors.
- Trained a robust XGBoost classifier on high-dimensional features for highly accurate sentiment prediction.

Study Assistant: Dual-Persona AI Tutor

Python, Gradio, Google GenAI, Gemini 2.5 Flash

- Built an interactive educational web application hosted on Hugging Face Spaces utilizing LLMs to break down complex concepts.
- Engineered a custom Gradio interface allowing users to toggle between 'Friendly' and 'Academic' AI personas for tailored learning.

Real-Time Hand Gesture Recognition

Python, OpenCV, MediaPipe

- Engineered a real-time computer vision system during the 'Hack the Human Signal' robotics workshop to process live webcam feeds.
- Mapped dynamic hand landmarks to identify complex gestures, demonstrating foundational human-robot interaction techniques.

Daily Market Intelligence Brief

n8n, LangChain, Google Gemini, SerpAPI, Gmail API

- Engineered a comprehensive market analysis pipeline aggregating financial data from 10+ sources (NSE, MoneyControl, Economic Times).
- Leveraged LangChain to generate high-fidelity Markdown reports distributed automatically via email.

SKILLS & CERTIFICATIONS

- Languages:** C++, Python, JavaScript (ES6+), HTML5, CSS, SQL
- AI & Data Science:** Generative AI, Machine Learning (XGBoost), Computer Vision (OpenCV, MediaPipe), LangChain
- Frameworks & Tools:** n8n, Gradio, Flask, REST APIs, Webhooks
- Key Certifications:** NIAT Masterclass: LLM Text Embedding Systems; AI Agents 201 Hands-On Workshop (Built full-stack 'DataScape AI' dashboard).
